Fifteen years ago, Gloria Naylor burst onto the American literary scene with *The Women of Brewster Place*. Now she has focused her attention on the other side of the story - the men of Brewster Place. Like the women, they are committed to one another and to their community. Ben, who died in the first *Brewster Place* novel, is resurrected to narrate the tales of seven men and the women who love them. The complexity of their personal issues and how they are resolved leaves the reader with renewed hope and optimism. The #1 New York Times–bestselling author of *A Discovery of Witchess* examines the real-life history of the scientific community of Elizabethan London. Travel to the streets, shops, back alleys, and gardens of Elizabethan London, where a boisterous and diverse group of men and women shared a keen interest in the study of nature. These assorted merchants, gardeners, barber-surgeons, midwives,

instrument makers, mathematics teachers, engineers, alchemists, and other experimenters formed a patchwork scientific community whose practices set the stage for the Scientific Revolution. While Francis Bacon has been widely regarded as the father of modern science, scores of his London contemporaries also deserve a share in this distinction. It was their collaborative, yet often contentious, ethos that helped to develop the ideals of modern scientific research. The book examines six particularly fascinating episodes of scientific inquiry and dispute in sixteenth-century London, bringing to life the individuals involved and the challenges they faced. These men and women experimented and invented, argued and competed, waged wars in the press, and struggled to understand the complexities of the natural world. Together their stories illuminate the blind alleys and surprising twists and turns taken as

medieval philosophy gave way to the empirical, experimental culture that became a hallmark of the Scientific Revolution.

Renaissance science.” —Adrian Johns, author of *The Nature Book*

Reading and applying the Bible is essential to every facet of Christian life and ministry, yet our ability to do so is under attack from a myriad of directions. In Postmodern philosophy, the possibility of communication is dismissed, let alone communication from God. In Biblical studies, the amount of knowledge required to come to firm conclusions concerning the meaning and application of the Bible grows every day. However, the Bible is not so pessimistic about its accesibility. Instead, it presents itself as a clear word, sufficient to guide and encourage Christians in every area of life.Beginning with the Bible's own claims to clarity and sufficiency, The Gift of Reading Part 1 outlines the practice of reading the Bible in order to

understand and apply it. The Gift of Reading Part 2 will go further into the theory that lies beneath the methodology unpacked in Part 1. Persuasion is a novel written by a famous British writer Jane Austen. It is a story about the life of Anne Elliot, a middle daughter of baronet Sir Walter, a spender and bluffer. Due to these features of his character, he found himself in a difficult financial position. He has to rent a family estate Kellynch Hall in order to pay his debts. Meanwhile, his most smart and considerate daughter Anne goes to Uppercross to look after a sick sister. In the days of her youth she was mutually in love with Frederick Wentworth, but because of a fear of a poor marriage, "reasons of conscience" and on the insistence of a "family

friend" Lady Russel Anne stopped her relationship with him. But now after eight years, some incredible coincidence happens. The family that rents Kellynch Hall is related to Frederick Wentworth. Is the old-time love still alive in the hearts of Anne and Frederick? In the first book to argue for the benefits of boredom, Peter Toohey dispels the myth that it's simply a childish emotion or an existential malaise like Jean-Paul Sartre's nausea. He shows how boredom is, in fact, one of our most common and constructive emotions and is an essential part of the human experience. This informative and entertaining investigation of boredom--what it is and what it isn't, its uses and its dangers--spans more than 3,000 years of history and takes readers through fascinating neurological and psychological theories of emotion, as well as recent scientific investigations, to illustrate its role in our lives. There are Australian aboriginals and bored Romans, Jeffrey Archer and caged cockatoos, Camus and the early

Christians, Durer and Degas. Toohey also explores the important role that boredom plays in popular and highbrow culture and how over the centuries it has proven to be a stimulus for art and literature. Toohey shows that boredom is a universal emotion experienced by humans throughout history and he explains its place, and value, in today's world. "Boredom: A Lively History" is vital reading for anyone interested in what goes on when supposedly nothing happens. Set in the future when "firemen" burn books forbidden by the totalitarian "brave new world" regime. NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged

landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.
