*The Prosecutor in Transnational Perspective* Jul 22 2020 In this book, Erik Luna and Marianne Wade examine the considerable powers of the American prosecutor and look abroad in order to learn valuable lessons from a transnational examination of prosecutorial authority. They explore parallels and distinctions in the processes available to and decisions made by prosecutors in the United States and Europe. Through the varied topics covered by the contributors on both sides of the Atlantic, they demonstrate how the enhanced role of the prosecutor represents a crossroads for criminal justice with weighty legal and socio-economic consequences.

**Theoretical and Comparative Perspectives on Nationalism** Oct 13 2019 This volume brings together 15 articles divided into four sections on the role of nationalism in transitions to democracy, the application of theory to country case studies, and the role played by history and myths in the forging of national identities and nationalisms. The book develops new theories and frameworks through engaging with leading scholars of nationalism: Hans Kohn's propositions are discussed in relation to the applicability of the term 'civic' (with no ethno-cultural connotations) to liberal democracies, Rogers Brubaker over the usefulness of dividing European states into 'civic' and 'nationalizing' states when the former have historically been 'nationalizers', Will Kymlicka on the applicability of multiculturalism to post-communist states, and Paul Robert Magocsi on the lack of data to support claims of revivals by national minorities in Ukraine. The book also engages with 'transitology' over the usefulness of comparative studies of transitions in regions that underwent only political reforms, and those that had 'quadruple transitions', implying simultaneous democratic and market reforms, as well as state and nation building. A comparative study of Serbian and Russian diasporas focuses on why ethnic Serbs and Russians living outside Serbia and Russia reacted differently to the disintegration of Yugoslavia and the USSR. The book dissects the writing of Russian and Soviet history that continues to utilize imperial frameworks of history, analyzes the re-writing of Ukrainian history within post-colonial theories, and discusses the forging of Ukraine's identity within theories of 'Others' as central to the shaping of identities. The collection of articles proposes a new framework for the study of Ukrainian nationalism as a broader research phenomenon by placing nationalism in Ukraine within a theoretical and comparative perspective.

**Pearson BTEC National Applied Psychology** Mar 10 2022 Please note:

Specification changes to Unit 3 were announced by Pearson in late May 2021. These changes will apply to learners sitting Unit 3 exams from January 2022 and onwards. This means that Unit 3 within this book does not now match the revised specification. Units 4,5,6 and 7 within this book remain unchanged. There is a new Book 2 Revised Edition for the revised Unit 3 specification coming in Spring 2022. / Written by Cara Flanagan and other leading authors, two books support the Pearson BTEC Level 3 National in Applied Psychology and are endorsed for BTEC. / Book 2 covers the Extended Certificate Units and Book 1 covers the Certificate Units. The Extended Certificate comprises of four units - the Certificate Units plus Health Psychology and one optional unit. / Each book provides knowledge and evaluation of theories and studies combined with many engaging activities to deliver the vocational element; / Activities aim to prepare you for internal and external assessments; / A brilliant visual style and tone will encourage you through every step of the course.

**BTEC Level 3 National in Children's Play, Learning and Development**

**Student** Sep 04 2021 This title contains many features to aid learning and teaching. Activities and reflections provide additional ideas for lessons and homework tasks, case studies and theory in practices add the important real-world focus, so you don't have to spend time looking for your own examples, and assessment zones and assessment practices guide learners through internal and external assessment, with practice questions to help them achieve their potential.

*Pearson BTEC Level 3 in Information Technology* Jun 13 2022 The aim of this book is to provide comprehensive coverage of topics in Unit 1 of the BTEC Level 3 course in Information Technology in an interesting and approachable manner. If you are studying this course, you need to notice, read about, experience and analyse the impact and implications of current and emerging digital technologies. Examples and case studies from scenarios and events that have recently been in the news are used to bring the subject to life. Reading and discussing articles from quality newspapers, whether printed or online, discussing relevant TV documentaries, noticing and analysing the use of digital technology in countless aspects of life, as well as learning from a textbook, are all going to contribute to a successful exam result. The book is divided into six sections corresponding to the six Learning Aims outlined in the specification, complementing each of the PG Online teaching resource packs. These sections are divided into between four and eight chapters, each containing material that can be covered in one or two lessons. The chapters have in-text questions which can be used as discussion points in a lesson. An extra chapter at the end of Learning Aim B on "Drawing System

Diagrams" will be useful for students faced with a question on the exam for which they are required to draw such a diagram. In addition to almost 100 in-text questions and discussion points, there are over 80 end-of-chapter exercises that are designed to give practice in answering exam-style questions, using command words such as state, describe, explain, analyse. As much practice as possible is needed in answering such questions and getting feedback from the teacher so as to understand how to gain the maximum possible marks in the final exam.
